Dear Paul:

You will be interested in noting copy of
letter Dr. Little wrote me, explaining in some
detail his philosophy on public statements, to-
gether with my reply. While not taking sharp
issue with him on any point, I have attempted
to show him the need to let the public know that
the case has not been proven and closed, but that
there are "two sides."

Kindest personal regards.

Very sincerely yours,

John W. Hill
